

HARSH VASHISHTH

Software Developer and Front End Web Developer

8383933578 vharsh2003@gmail.com https://github.com/EPICdronzer Delhi

SUMMARY

I am a proactive and detail-oriented software developer with a solid foundation in computer science and web development. My passion lies in creating innovative, efficient, and user-focused solutions while thriving in collaborative team environments. I continuously seek opportunities to enhance my skills and contribute effectively to impactful projects

EXPERIENCE

MERN and Next.Js Intern

A2V Groups

04/2026 - 05/2026 Burari, Delhi

- Integrated 3 APIs to dynamically display data, enriching content and functionality of web applications.
- Resolved 30+ front-end issues, enhancing UI stability and reliability
- Utilized Git/GitHub for version control and project management across a team of 3, ensuring efficient collaboration.
- Built 5 responsive web applications using Next.js for SEO and MERN stack for efficiency during Internship, enhancing user engagement.
- Collaborated with 5 developers and designers to deliver UI/UX designs into high-quality code.
- Built web applications using Next.js with MongoDB Atlas backend, enhancing user experience by introducing dynamism.

Summer FrontEnd Developement Intern

IBM

06/2024 - 08/2024 Work From Home

IBM SkillsBuild Internship with CSRBOX

- Built responsive, user-centric web applications using HTML, CSS, and JavaScript
- Collaborated with developers and designers to translate UI/UX designs into high-quality code
- Optimized performance and participated in agile processes and code reviews
- Debugged and resolved front-end issues, improving UI stability and reliability.
- Followed modern development standards, including semantic HTML and accessibility guidelines.
- Ensured cross-browser compatibility and consistent user experience across different devices.
- Integrated APIs to fetch and display dynamic data within web pages.
- Used version control tools (Git/GitHub) for collaboration and efficient project management.
- Conducted responsive testing and fixed layout issues to ensure smooth functionality on all screen sizes.
- Documented features, workflows, and development steps for easier future maintenance.

SKILLS

Programming & Software Development

Gmail	GitHub	Git	Figma
Agile	IoT	ESP8266	Arduino
Java	Core Java	OOP	
Hibernate	Spring	Spring Boot	
Spring Security	Django	SQLite	
PLSQL			

Web Application Development

MongoDB	Express	React.Js
Node.Js	Next.Js	Tailwind
Bootstrap	Javascript	HTML
CSS	ES6+	Responsive Web

PROJECTS

RAS Water Proofing

04/2026 - 05/2026

A2V Groups Burar, Delhi

Delivered a fully functional website for a waterproofing business, enabling the client to establish an online presence and effectively showcase their services to potential customers.

- Served as Lead Developer, effectively managing development and client interactions.

ToysForKids

04/2026 - 05/2026

A2V Groups Burari, Delhi

Developed a responsive ecommerce web application for kids toys, enabling users to browse products, view details, and manage purchases through an intuitive and userfriendly interface.

- Learned and integrated Next.js to build a scalable and high performance web application with modern full-stack capabilities.

EXPERIENCE

Java Intern

OctaNet Group

📅 10/2024 📍 Work From Home

- Worked on Java-based applications, focusing on object-oriented programming principles.
- Developed modules using Core Java concepts such as classes, objects, inheritance, polymorphism, and exception handling.
- Debugged and optimized Java code to improve performance and maintainability.
- Collaborated with team members to understand requirements and translate them into functional code.
- Utilized Java features such as interfaces, abstract classes, collections framework, file handling, and multithreading.
- Participated in code reviews and incorporated feedback to improve coding style and logic.
- Applied problem-solving techniques to build mini-projects and practice logical thinking.
- Used IDEs like IntelliJ IDEA / Eclipse to build, test, and run Java applications.
- Integrated basic JDBC operations to connect Java applications with databases.
- Used version control (Git/GitHub) to manage code efficiently.

EDUCATION

Bachelor's of Computer Education

Vivekanand Institute of Professional Studies - Technical Campus

📅 10/2022 - 07/2025 📍 Delhi

Higher Education 10+2

DAV Public School, Ashok Vihar Phase 4

📅 03/2019 - 03/2022 📍 Delhi

CERTIFICATIONS

MUJ ELICIT 2023 UX Evolve

Participation Certificate

NPTEL Cloud Computing Course

Passed with Certification

NPTEL Enhancing Soft Skills Course

Passed with Certification

Coursera Figma and Wordpress Course

Both Certified

IBM SkillsBuild FrontEnd Course

IBM SkillsBuild With CSRBOX

TRAINING/COURSES

Java Full Stack

Ducat Institute of Coding

MERN Stack

Ducat Institute of Coding

PROJECTS

Jai Jagannath AstroSite

📅 06/2026 📍 Delhi, India

Developed a modern astrology platform using MERN, featuring horoscope insights, astrological services, and a responsive user interface.

- Implemented end to end MERN stack functionalities, gaining hands on experience in full-stack architecture and database management.

Freelance Portfolio Project

📅 06/2026 📍 Delhi, India

Developed and deployed a professional portfolio website for a client, delivering a responsive and visually appealing user experience tailored to their requirements.

- Successfully transformed client requirements into a fully functional portfolio website, ensuring a seamless user experience across devices.

AUCTION MECHANISM SYSTEM

📅 06/2023 - 11/2023 📍 Delhi, India

Project designed to simulate a real-world bidding environment

- Created the Auction Mechanism System to simulate a real-world bidding process
- Enhanced understanding of Java collections, exception handling, and user interaction

EMISSION GUARD

📅 01/2025 - 05/2025 📍 VIPS, Delhi

Project focused on real-time air pollution monitoring

- Built Emission Guard to monitor real-time air pollution levels
- Integrated sensors from vehicles using ESP8266 microcontroller

OPTICAL GALAXY

📅 10/2025 - 10/2025 📍 Delhi, India

Project designed to stimulate a sales management and monitoring system

- With this project I was able raise my first freelance payment
- Delivered to a working business house who deals in optical products

INTERESTS

Community Volunteer

Community service involvement through volunteering

Partner and Volunteer

Involvement in National Service Scheme
